

Fall 2016 Delta Program Events

Roundtable

Wednesday, September 21; 6:00-7:30 pm

The Roundtable forum is a discussion-based sharing and networking opportunity around teaching and learning. A guest speaker introduces a topic of general interest or a provocative issue in education after which small group discussions are held over a meal provided by the Delta Program and its partners.

Workshops

Developing Your Teaching and/or Mentoring Statements

Thursday, September 15; 9:00-11:00 am (Union South, TITU)

This workshop is intended to help participants develop their mentoring and/or teaching philosophy through hands-on exercises and constructive peer feedback. These are often a required piece of many faculty job applications. Participants will leave with a solid draft of their statement(s). You do not need to have a prior draft of your material in order to participate in the workshop.

Pulling It All Together: Crafting Your CV/Resume and Cover Letter

Thursday, September 22; 9:00-11:00 am (Union South, TITU)

In developing your written credentials and preparing application materials for your job search, it is crucial to represent your professional experience, accomplishments, expertise, and professional development experiences in the most impactful manner possible. Join us and learn how to write your way into an interview!

Pre-Internship Workshop I: Finding a Project

Wednesday, October 5; 9:30-10:30 am (445 Henry Mall, Room 117)

This two-part workshop series is intended to prepare students to engage in the Delta Internship Program, which gives graduate students and postdocs practical experience to develop their skills in teaching. Interns work with a faculty or staff mentor on a teaching-as-research project. Attendees will meet to discuss potential internship projects and partners. This session is for students who do not yet have a specific project or partner in mind.

Creating an Individual Development Plan (IDP)

Wednesday, October 5; 4:30-6:00 pm (159 Wisconsin Idea Room, Education Building)

Participants will begin to create or further develop their personalized plan taking into account career interests and addressing the development of knowledge and skills for professional growth.

How to Address the Broader Impact in Your NSF Fellowship Application

Friday, October 7; 1:00-3:00 pm (location TBD)

This workshop is designed to help you address the concept of broader impacts in your fellowship application, discuss strategies for writing a successful broader impact plan, hear from panelists about successful fellowship proposals, and learn about resources on campus.

Pre-Internship Workshop II: Developing Your Project

Tuesday, October 25; 9:00 am - 12:00 pm (445 Henry Mall, Room 117)

Attendees will define their internship project, develop their project plan, explore available resources, and learn about the university's institutional review board (IRB) process. This session is for students who have a project and partner planned and have completed at least one semester-long Delta course or approved alternative. Students preparing to complete their Delta internship project during the subsequent semester are required to attend this workshop.

Info Session

Friday, October 21; 8:30-10:30 am (drop-in, 445 Henry Mall, Room 302)

Join us for a drop-in info session to learn more about Delta offerings including courses and seminars, the Internship Program, the Delta Certificate in Teaching and Learning and much more!
