

# Spring 2017 Delta Program Events

## Roundtable

Skills for Success: The Multifaceted Benefits of Teaching  
Wednesday, February 8; 6:00-7:30 pm (dinner included)

The Roundtable forum is a discussion-based sharing and networking opportunity around teaching and learning. A guest speaker introduces a topic of general interest or a provocative issue in education after which small group discussions are held over a meal. This event is co-sponsored by the Graduate School Office of Professional Development.

## Workshops

### Creating an Individual Development Plan (IDP)

Tuesday, January 24; 4:00-5:30 pm (Union South, TITU)

Participants will begin to create or further develop their personalized plan taking into account career interests and addressing the development of knowledge and skills for professional growth.

### Madison College Open House

Friday, March 3; 9:30am-12:30pm (Madison College)

Madison College will be holding an open house for Madison College faculty and Delta participants to explore synergies and the Madison College campus.

### Teaching Philosophy Workshop

Thursday, March 9; 9:00-11:00 am (Union South, TITU)

This workshop is intended to help participants develop their mentoring and/or teaching philosophy through hands-on exercises and constructive peer feedback.

### Mentoring Statement Workshop

Thursday, April 6; 11:30am-1:00 pm (445 Henry Mall, WISCIENCE Conference Room 117)

This workshop is designed to help participants develop their mentoring statement. Through hands-on exercises and constructive peer feedback, participants will leave with material for a draft of their mentoring statement.

### Pre-Internship Workshop: Finding a Project

Thursday, April 6; 9:30-11:00 am (445 Henry Mall, WISCIENCE Conference Room 117)

This two-part workshop series is intended to prepare students to engage in the Delta Internship Program, which gives graduate students and postdocs practical experience to develop their skills in teaching. Attendees will discuss potential internship projects and partners. This session is for students who do not yet have a specific project or partner in mind.

### The Scientific Writer's Toolbox: Developing Strategies for Effective Manuscript Writing

Tuesday April 18; 2:00-3:30 pm (Union South, TITU)

This workshop is designed for graduate students in STEM and social sciences who want to improve the quality and quantity of their scientific writing. Using a hands-on approach, this workshop will help participants identify and overcome hurdles to writing productivity.

### Pre-Internship Workshop: Developing Your Project

Tuesday, April 25; 9:00 am - 12:00 pm (445 Henry Mall, WISCIENCE Conference Room 117)

Attendees will define their internship project, develop their project plan, explore available resources, and learn about the university's institutional review board (IRB) process. Students preparing to complete their Delta internship project during the subsequent semester are required to attend this workshop.

### Diversity Statement Workshop

Tuesday, May 16; 9:00-11:00 am (Union South, TITU)

Through hands-on exercises and constructive peer feedback, participants will leave with material for a draft of their diversity statement.
