The Delta Program in Research, Teaching and Learning
What is Delta about?

Preparing UW graduate students and post-docs for successful careers that integrate forefront research and superb teaching and learning.
Delta Program Offerings

Teaching-as-Research
Learning-through-Diversity
Learning Community

Graduate students
- informal education
- instructional materials development
- college classroom
- effective teaching with technology
- community events
- courses
- programs

Academic staff
- post-docs
- delta certificate
- internship program
- CCLE
- mentor training
- expeditions in learning

Faculty
- workshops
- roundtable dinners
Leveraging Existing Capacity through the Delta Program

- Propose to participate in the Delta Program to learn knowledge and skills in teaching, outreach and mentoring

- Delta courses, programs, and internships will provide you with opportunities to implement your ideas and evaluate if you have done so effectively.

- You will be working within a multidisciplinary learning community as you engage in your broader impact activities.
III. Demonstrated skills in teaching and learning...

i) Ability to apply research skills to the improvement of student learning

ii) Leadership in a learning community focused on teaching and learning

iii) Awareness of how to promote successful learning with diverse student audiences

iv) Knowledge and skills in teaching and learning, with experience in developing, implementing and evaluating new ways of teaching

Network Exchange Program
Obtain funding to present and conduct your disciplinary research and your teaching-as-research projects across a national network of universities.

STEM Education Scholars
Prepare for diverse teaching roles through a summer immersion experience for early faculty, postdocs, and senior graduate students.

Learning-through-Diversity in Action
Learn from the successful learning-through-diversity practices implemented across the CIRTL Network.

Graduate Seminars
Explore and develop your skills in teaching with graduate students, postdocs and faculty from diverse research universities across the nation.

The CIRTL Café
Build professional connections and collaborations through this online portal for the national CIRTL Network learning community.

Seed Grant Program
Apply for funding to develop, implement and evaluate your teaching-as-research ideas, at UW and throughout the CIRTL Network.

The CIRTL Network:
Your National Connection to Future Faculty
